

Apple Integration Milestone for Pertexa

Pertexa Healthcare Technologies, Inc. our California based medical company announces today that it has completed integration of its software product with Apple's operating system. This integration will support Pertexa's flagship product Radekal, on Apple products as it is now fully deployed to a HIPAA secure cloud.

Radekal is typically utilized as a tablet-based product in medical clinics and hospitals across the United States and is now fully operational on Apple products. Radekal's application can be downloaded directly from the Apple App Store. Radekal is widely recognized as the nation's top physicians' productivity tool with user productivity gains of over 30+%.

"The full integration with Apple is a key milestone for Pertexa as our Radekal productivity software is deployed across the U.S. healthcare market. To date, 95% of our early adopter physicians are requesting the iPad. This Apple integration will speed up our product's adoption", Kishor Joshi, CEO of Pertexa states.

About Pertexa:

Pertexa, Inc. is a next-generation medical technology company headquartered in Ridgecrest, California that creates and distributes advanced technology including RITA and RADEKAL, the nation's leading Physician's Productivity Tool, which has been shown to increase productivity by 30%. By combining both hardware and app development for worldwide medical use, Pertexa is an innovative brain trust, advancing disruptive transformational technologies for an evolving healthcare environment.
