New Provider Directory Accuracy Law Took Effect July 1, 2016

Make Sure Your Practice Isn't Penalized

The new law (SB 137) not only requires payors to maintain accurate and current directories, but it also required physicians to do their part in keeping the information up-to-date. Failure to comply with the new requirements may result in payment delays, removal from directories and even contract termination. For more information on physicians' obligations under the new law, visit <http://cal.md/directory-accuracy>.

Updated Payor Profiles

The California Medical Association's (CMA) Center for Economic Services has published updated profiles on each of the major payors in California including Aetna, Anthem Blue Cross, Blue Shield of California, CIGNA, Health Net, United Healthcare, Medicare/Noridian and Medi-Cal. Each profile includes key information on health plan market penetration; a description of the plan's dispute resolution process; and the name and contact numbers for medical directors, provider relations, and other key contacts.

About Pertexa

Pertexa, Inc. is a next-generation medical technology company headquartered in Ridgecrest, California that creates and distributes advanced technology including RITA and RADEKAL, the nation's leading Physician's Productivity Tool, which has been shown to increase productivity by 30 percent. By combining both hardware and app development for worldwide medical use, Pertexa is an innovative industry leader, advancing disruptive transformational technologies for an evolving healthcare environment.
