

## Pertexa Announces Partnership with MAKS Billing and Consulting of Atlanta, GA

---

Pertexa Healthcare Technologies, Inc. is pleased to announce that it has agreed to partner with MAKS Billing and Consulting of Atlanta, GA. MAKS will be a billing/RCM partner and a distributor for all Pertexa offerings including two flagship products Radekal [www.radekal.com](http://www.radekal.com) and RoboRita [www.roborigita.com](http://www.roborigita.com).

MAKS LLC ([www.maksbilling.com](http://www.maksbilling.com) and [www.maksitconsulting.com](http://www.maksitconsulting.com)) was founded in 2007 by Ketan Ghia and has grown into one of the premier medical billing and consulting companies in the southeast. While the company was founded in Atlanta, it has grown into a company with a rapidly expanding regional footprint. The company's focus is helping physicians and medical offices with management and integration of developing technologies, HIPAA compliance in order to keep up with today's fast changing environment. MAKS strives to develop a partnership and culture of performance excellence with our clients. Instead of being solely concerned with regulatory compliance, at MAKS we aspire to EXCEED expectations. We go beyond perceived excellence and into the realm of realized operational and fiscal advantages, and seek to be recognized as an integral asset to your organization.

"I am pleased to partner with such an innovative company, Pertexa, with our complete medical billing support throughout the southeast. I have been watching Pertexa develop their productivity tool, Radekal, for 10 years and our company has been awaiting the release of the cloud-based Radekal. I am thrilled to help bring this exciting, disruptive product to the market", CEO, Ketan Ghia stated.

"Ketan and I share the same strategic vision and focus on software. Both companies apply advanced technology to enhance the productivity for the benefit of its' clients. I want to thank MAKS and Ketan for being so patient (10 years) as we developed our Radekal software, we now have technology that will truly help physicians gain productivity". Kishor Joshi, CEO stated.
