

Pertexa Preps for Job Growth with New Regional Technology Partnership

Pertexa Healthcare Technologies announces that it has secured a partnership with Worklogic HR of Bakersfield, California to manage its human resources processes and systems. By utilizing Worklogic's proprietary integrated turn-key solution, Human Resource Information System (HRIS), Pertexa is anticipating to manage its regional job growth with Worklogic's services.

Worklogic HR, founded in 2000 by Jeff Thorn, has grown into one of the premier HR companies in the U.S. While the company was founded in California, it has grown into a company with an increasing national footprint.

"I am pleased to provide Pertexa with our complete human resource support platform. Both companies share a vision that technology is the key factor in increasing employee productivity, satisfaction while maintaining company HR compliance. Worklogic HR will allow Pertexa to focus on their rapidly growing client base in software and robotics while ensuring that each of its employees get state-of-the-art HR support. This contract will increase our company's growth as we expand along with Pertexa. With that growth there will be a need to increase the number of employees that we will need to hire over the next couple of years in Kern County." Jeff Thorn, Worklogic HR, CEO.

"Pertexa has been seeking a national HR and payroll partner for a number of months. We are glad we waited to find Worklogic HR. Our respective companies share the same strategic vision and focus on software. Both companies apply advanced technology to enhance productivity for the benefit of its clients. The services of Worklogic HR will enable us to focus on our core strengths and still be in compliance with the many State and Federal regulations related to HR and payroll". Kishor Joshi, CEO.

About Pertexa:

Pertexa, Inc. is a next-generation medical technology company headquartered in Ridgecrest, California that creates and distributes advanced technology including RITA and RADEKAL, the nation's leading Physician's Productivity Tool, which has been shown to increase productivity by 30%. By combining both hardware and app development for worldwide medical use, Pertexa is an innovative brain trust, advancing disruptive transformational technologies for an evolving healthcare environment.
