

## Pertexa and Complete Merchant Solutions (CMS) Announce Strategic Partnership

---

*Pertexa, a leader in healthcare ingenuity and productivity software for the medical industry and Complete Merchant Solutions (CMS), a technology company providing full service electronic payments solutions, announce a partnership in which Pertexa will integrate CMS payment solutions with the Radekal product, to provide a user friendly interface and workflow for practices to accept and patients make electronic payments.*

CMS is a technology company that provides enhanced payment workflow, with the goal as to not only save customers on their fees but to provide the most overall value and transaction security – to improve the payment experience. As a part of this agreement, CMS has agreed to provide these solutions to Pertexa customers at no additional charge, while also offering programs that ensure fees are the same or less than the practice is currently paying.

“We have watched Pertexa continue to grow in the depth and breadth of the leading solutions they bring to the healthcare marketplace and are very pleased to have the opportunity to work closely together to bring an equally exceptional integrated payments solution to their clients. At CMS, our focus has been and continues to be to pursue relationships with like-minded, forward-thinking organizations that are seeking to ‘stay ahead of the curve’ to exceed the expectations of their clients. We are pleased to have such a partner in Pertexa,” shared Dan Johnson, Director of Chanel Development at CMS.

### About CMS:

Complete Merchant Solutions (CMS) is a full-service electronic payments solutions provider for over 3,500 merchants. CMS facilitates electronic payment processing for all major credit and debit cards, gift and loyalty cards, ACH, remote deposit capture as well as other non-cash payment methods. CMS’ innovative, customizable solutions include a wide variety of integrated point-of-sale software, terminals and machines, e-commerce and wireless payment processing solutions. CMS has also developed several technology solutions and has partnered with many independent software vendors to provide integrated payments solutions to merchants, especially in the healthcare vertical. CMS was founded in 2008 and is based in Orem, Utah.

### About Pertexa:

Pertexa, Inc. is a next-generation medical technology company headquartered in Ridgecrest, California that creates and distributes advanced technology including RITA and RADEKAL, the nation’s leading Physician’s Productivity Tool, which has been shown to increase productivity by 30%. By combining both hardware and app development for worldwide medical use, Pertexa is an innovative brain trust, advancing disruptive transformational technologies for an evolving healthcare environment.
